

## Fishing

Battlesteads is very pleased to offer to hotel guests some quality salmon and sea trout fishing on some premier North Tyne locations.

There are currently two fisheries available, both much sought after.

**CHESTERS** is downstream from Chollerford bridge approximately 5 miles from the hotel. This is a two beat stretch with double bank fishing of about 1.5 miles. Chesters fishes from late March onwards. There is a maximum of two rods per beat. Charges are from £30 per day plus the cost of a qualified and licensed guide/instructor from £80 per day. Rods are available for hire.

Fishing is currently available for weeks beginning 21st April, 30th June and the 14th of July.

**HAUGHTON CASTLE** water is approximately 3 miles from the hotel. This is a single bank stretch extending for 2 miles with 2 rods per beat. The setting within the grounds of the historic castle is well worth experiencing. This water fishes from April onwards. Charges are from £35 per day. A guide/instructor is available from £80 per day. The guide can supply suitable rods for hire.

An attractive option for hotel guests is a relaxing session trout fishing on the stocked castle lake. The charge for two rods with an instructor and rods, and exclusive use of the lake set in front of the castle, is £60.

What better way to experience the Northumberland hospitality than to enjoy a relaxing day's fishing followed by dining in the hotel on the best of local produce?

PLEASE NOTE: Environment Agency fishing licences are required - these are available on-line from the hotel.
